With regard to proceedings in Congress, you may well believe that they excite few romarks and attract precious little attention, so long as Grant is our rear neighbor, and all our abled bodied and many of our aged citizens are lying behind the fortifications a week, two weeks, sometimes a month at a stretch. Since the first of May, I do not remember to have heard in the arrest, or in any of the mercantile or professional offices, a single discussion of any measure before the present Congress.
